Mastering Leadership & Team Building

Unleash your inner potential!

Create the Time of Your Life!

The Mastering Leadership for Youth Programme gives high school students the opportunity to live, learn, eat and play on the campus of Lady Margaret Hall of Oxford University while learning about the English language through drama, public speaking, critical reasoning and informal logic workshops as well as solving social problems through simulation activities. During the programme, students will be given an extraordinary opportunity to go into the heart of one of the world's most celebrated universities and to experience life as an Oxford undergraduate. A full schedule of exciting visits and excursions provide an authentic taste of English's history, culture and traditions.

At the Mastering Leadership for Youth Programme, we aim to empower students to become leaders and change makers with discussions that focuses on leadership skills, critical reasoning and soft skills development. Students will learn to have a greater sense of who they want to be and what they want to do in the future. They will develop and exude greater confidence and ease in whatever they plan to take on and gain a better understanding of what they have to offer, no matter what career path they choose.

We believe leadership is the key to success in every profession and it is the core element of the programme. Our aim is to produce leaders and thinkers who go on to have significant influence and impact around the world. The student's participation in the programme will be in an open and fun learning environment. They will participate in team-building activities and hands on service projects designed to expand and challenge their leadership and service skills. Working with experienced leadership facilitators, students will discover what it takes to stand out in today's ever-changing world and will have the opportunity to create and experience things they will never forget and walk away with valuable knowledge that last for a lifetime!

Leadership and learning are indispensable to each other. - John F Kennedy
